

“serious recreational fun”

McLay Unveil's the All New 931 Aluminium Fishing Boat

Watch out the whole family will want to come along!

McLay's latest offering, the Mclay 931 aluminum trailer boat, is bound to impress fishermen and cruisers alike when it is launched at this year's Hutchwilco Boat Show on 16 May at the ASB Showgrounds in Auckland. But for those of you that can't wait, here is a sneak preview.

The McLay 931 is a serious overnight fishing boat with all the comforts of a cruiser. The 931 has McLay's signature aluminum hull and comes with all the quality fishing accessories you have come to expect from a McLay, but it also features four births, a fully equipped gallery, head with shower and toilet.

This versatile 9m fishing and cruising vessel can comfortably cater for 12 people when used as a day boat or provides comfortable overnight accommodation in its surprisingly spacious four births.

Their design and production team have worked hard to produce the stunning example pictured, if only half their efforts are recognized this boat will be a real attention grabber at the show.

Want to know more? You will have to come and visit us at the show in Hall 3 on stand number 355.

For those of you who cannot make the boat show please email Steve@mclayboats.co.nz for more information.
