McLay BOATS

Fortress Range

Open boats
at their best

Image: NZ Fishing News

The new Fortress range of boats come as tiller steer, side or centre console and are available in standard sizes from 4.41 to 5.71 metres.

Since the release of these boats they have instantly gained a reputation of being a very strong, great handling soft riding boat that is also very stable at rest.

They are now our top selling export model range and since releasing them in New Zealand just over a year ago sales numbers have gone from strength to strength.

With lots of great features and options to suit nearly all open style boating needs it all adds up to a very enjoyable boating and fishing trips.

All this equates to a great fishing and recreational boat that makes it one of the best open boats around.

Larger sizes available on request.
