The very latest release from McLay Boats.

These **Gen2 Hardtops** are built on a new hull that is wider at the water line than previous models, giving even better stability, yet maintaining the great ride and handling McLay Boats are renowned for. The raised shear-line hull shape gives a whole new streamlined look combined with more internal space and loads of new features. These new boats are bound to be very popular with both fisherman and family boaties who want that little bit extra in a boat.
