

Xtra Cab are available on all three Gen 2 Hardtops.

The wheelhouse is extended 450mm on the 701 and 600mm on the 751 & 801 models. This allows additions to be added such as fridge, cooker, sinks, table and extra seating.

Xtra Cab

McLay Boats Gen2 models

These Gen2 Hardtops are built on a new hull that is wider at the water line than previous models, giving even better stability, yet maintaining the great ride and handling McLay Boats are renowned for. The raised shear-line hull shape gives a whole new streamlined look combined with more internal space and loads of new features. These boats have become very popular with both fisherman and family boaties who want that little bit extra in a boat.

The **Gen2 751** is a great family / fishing trailer boat. Having the strength and design features to cope with those long off shore adventures.

Loaded with new features, heaps of storage space and even more stability, the great handling characteristics of the 751 Gen2 will be able to handle rough water and large swells. The very spacious wheelhouse and generous sleeping room in the forward cabin, adds up to this vessel being a great all round craft for both sea and lake adventures
